

Setting the standard for Response, Craftsmanship and Performance

**MILLWRIGHTS • PIPE FITTERS • RIGGERS • WELDERS
MACHINISTS • MAINTENANCE**

Specializing in Turnkey Projects

FABRICATING - Plate, pipe and structural fabrications and weldments; large or small. Carbon, stainless, aluminum and alloy fabrications. ASME/AWS code welding.

MACHINING - Custom machining of items small and large; new parts and repair/modifications of existing parts. Specializing in machining parts and components for rotating and reciprocating equipment. Lathes, vertical mills, horizontal mills, turret lathes, turning centers, machining centers, etc. Pump rebuilds.

MAINTENANCE - Industrial maintenance services from comprehensive contract maintenance programs to supplemental maintenance labor for short or extended terms.

MILLWRIGHT - Machinery and equipment installation/relocations, modifications, repairs and dismantlement. All types of machinery and process equipment from single pieces to entire plants

PIPEFITTING - Process piping, utility piping, and bulk conveying. All types of systems & processes including carbon, plastic, stainless, alloy and lined pipe. Clean-in-Place (CIP), high-purity systems and cold swaged LOKRING™ systems. Orbital pipe welding. Insulation of pipe and vessels

RIGGING - Erecting, lifting, hoisting, jacking, shoring and demolition. Crane and heavy forklift work. Engineered critical lifts and rigs. Plant dismantling; skidding, transporting and relocating of machinery and equipment.

WELDING - AWS and ASME qualified welders for structural and pipe. Carbon, stainless, aluminum and alloys. Fabrications and weldments. Repair welding, hard-facing and build-ups. Orbital pipe welding capabilities.

OTHER SERVICES OFFERED

- Precision Optical Alignments
- Laser Shaft Coupling Alignments
- Manufacturer's Installers/Technicians
- Emergency & Off-Hour Services
- Industrial Construction & Management
- Maintenance Services & Labor Supplements

TYPICAL INDUSTRIES SERVED

Food and Bakery
Pharmaceutical
Chemical
Paper and Graphics

Gas and Air Separation
Cement and Quarry
Environmental Technologies
Incineration and Remediation Systems

Plastics
Power Generation
Cogeneration
Metal Working
